Mr. G. M. West,

Escanaba, Mich.

Dear Sir: I would be very glad to have you interested in helping me in my life work by subscribing to the stock named in the enclosed circulars. I ask this more freely because there can scarcely be a doubt as to the ultimate profit of the publication. Will you not kindly give this subject your special attention and aid me in my efforts to publish a representative work on a line with the importance and refinement of the art of angling?

Yours very truly,

W. C. Harris
